

Check your release artwork

Use the exported file and your distributor submission form together.

Artist / release title:

Submission route:

Official requirements URL / date checked:

FILE CHECK

☐ **Dimensions, format, color and file size match this route.**

Read the chosen upload instructions; service requirements can differ.

Actual file: _____ x _____ px Format: _____ Size: _____ MB

☐ **The saved file opens with the intended crop and image quality.**

Enlarging a low-quality image does not restore missing detail.

RELEASE CHECK

☐ **Visible names and title match the submitted release metadata.**

Compare spelling, punctuation and spacing; check feature/version rules.

☐ **Prohibited promotional elements have been removed.**

Check the full current source list, including URLs, prices and platform logos.

☐ **Asset permissions or licenses have been reviewed and retained.**

A found image, template or AI result is not automatically cleared for every use.

CREATIVE CHECK / DESIGN ADVICE, NOT AN UPLOAD RULE

☐ **At thumbnail size, the focal image and intended text still work.**

If something disappears, revise that specific element and compare again.

☐ **A dated final copy is stored separately from working drafts.**

Reopen the actual download before submitting; do not rely on a preview.
